Lenovo and Nutanix
Mapping the route to leadership
hyperconverged infrastructure

At a crossroads
Your IT organization is under increased pressure to do more, do it fast, and do it cost-effectively. You need to invest in new growth opportunities, but resources continue to shrink.

Cost and complexity
Deploying, managing, and scaling data center infrastructure is expensive and time-consuming.

IT silos
Legacy infrastructure creates inflexible silos of specialized IT skills.

No time for innovation
Growth opportunities are missed when IT spends a majority of its time on operational issues.

Deliver cloud economics and agility with the security and reliability of on-premises solutions.

Time for a new direction
Leadership paves the way.

The Nutanix web-scale infrastructure offers a new approach to designing, deploying, and managing data centers that is easy and efficient.
