Lenovo

Hybrid is the future of work

Today's employees are setting up shop outside the office, working on the go, and collaborating wherever they are. Companies must pursue the new.

But the flexible workplace is a big challenge for IT. Not only do your employees need modern tools, you must also deliver, secure, manage, and support their devices remotely.

Lenovo is here to help. Our technology solutions keep your people productive in a work-from-anywhere world.

7 in 10

employees say the flexibility to work from home makes them more satisfied with their job!

ThinkPad® X1 Carbon

60%

of employees prefer remote work at least half of the time.¹

83%

of ITDMs expect that at least 50% of work will be done outside a traditional office.¹

Modernization is the way to evolve and thrive

Together with our partners, Lenovo delivers a range of hardware, software, and services — integrated solutions that enable **modern IT**.

The foundation of these solutions is modern devices with Windows 10 Pro and the Intel® Evo™ vPro® platform — built for what IT needs and what users want. These technologies and tools keep employees productive and collaborative.

Wherever you are on the road to modernization, Lenovo solutions pair the right devices with smarter services — so you can deploy, manage, secure, and support your employees around the clock, from wherever you are to wherever they are.

Lenovo

Modern devices as **fast and flexible** as you are

Equip your employees with modern devices that empower today's flexible work. Our solutions layer features and services on Windows 10 devices to meet your most pressing IT challenges.

Let Windows 10 Pro show you what it can do.

Microsoft Windows 10 Pro supports the way your team works now and paves the way for tomorrow — with comprehensive security, business-class tools, and flexible management.

Productivity from the get-go

Windows Autopilot zero-touch deployment lets employees simply unbox their device and start working.

Powerful device management

Microsoft Intune enables painless updates and patches so employee devices are always up to date, always ready.

Unmatched security

Lenovo modern devices running Windows 10 Pro give your remote workforce the same advanced security protections they would get at the office.

The Intel® Evo™ vPro® platform, built for what IT needs and what users want.

The premium thin and light laptop experience for business is here.

Performance for the hybrid workforce

40% more responsive while on battery, less than 1 second wake from sleep, real-world battery life improvement, and best-in-class wireless and wired connectivity.^{2,3,4,5}

Protection built in

Hardware-enhanced security features provide a more secure foundation with protection against attacks below the OS and remote recovery capabilities.

Remote management tools

Monitor, restore, and upgrade devices inside and outside your firewall, even when they're powered off.

Using Windows Autopilot, the process of configuring and provisioning devices for new hires and other employees **was reduced from 25 minutes per device to just seconds.**⁶

Your IT skills are there. But you don't have to be.

Zero-touch deployment of Windows 10 Pro PCs with the Intel® Evo™ vPro® platform lets you deliver ready-out-of-the-box PCs to remote workers. It's easy and efficient, saving time and costs. And your employees get the convenience and security of shipment right to their door, reducing downtime.

Microsoft Windows Autopilot, a versatile cloud-based software solution, provisions PCs preconfigured to your corporate standards and policies. Windows Autopilot also speeds PC repurposing, making device reset and redeployment secure and simple.

Lenovo

You can't be with employees every minute ... but **ThinkShield** can

Protect devices and data with ThinkShield, Lenovo's security portfolio of hardware, software, services, and processes. These fully customizable solutions secure your enterprise.

Security begins in R&D and extends through the supply chain and device lifecycle. Rigorous supplier vetting assures that every step is controlled, audited, and tamper-proof, from our facility to your employees' desks.

ThinkShield adds these powerful security capabilities to the built-in security features of Windows 10 Pro and the Intel® Evo™ vPro® platform. The technologies work hand in hand to keep you protected.

Secured-core PC

Boot up against a root-of-trust checklist to guard against attacks aimed below the operating system. BIOS-level threats are shut down before they can start up.

SentinelOne®

AI-powered antivirus protection predicts, prevents, and stops even zero-day threats and instantly directs the device to self-heal.

Absolute® software

Persistent endpoint management for real-time monitoring and remediation.

ThinkPad T14 i
Secure Access Edition

25%

Security personnel waste 25% of their time chasing false alerts.⁷

2/3

of businesses that suffered a breach didn't even know they they'd been breached for several months.⁸

76%

of security pros are focused on detection and containment instead of protection, but **protection can save businesses up to \$1.4M per attack.**⁹
