

THINKSMART EDITION TINY

A NEXT EVOLUTION POLY CONFERENCE ROOM SOLUTION

Easy to deploy, manage, and upgrade, the ThinkSmart Edition TINY makes a powerful, reliable, and secure addition to your existing Poly ecosystem. It comes bundled with the latest Poly controller and supports Microsoft Teams Rooms for effortless collaboration and communication.

CERTIFIED

As Lenovo and Poly's modular, certified Microsoft Teams Rooms device, ThinkSmart Edition TINY is purpose-built to meet the stringent requirements set forth by Microsoft, so you can be assured our compute will align with your needs.

POWERFUL

Packed with 9th Gen Intel® i5-9600T vPro™ Processors, ThinkSmart Edition TINY has the power to handle high demands from Microsoft Teams Rooms without slowing down or missing a moment of the conversation.

SECURE

Your business and your device are protected with Lenovo's built-in ThinkShield security solutions as well as the Intel® vPro® platform, which offers proactive, secure manageability capabilities.

STABLE

ThinkSmart Edition TINY comes preloaded with Windows 10 IoT for the stability and added security enterprises need from their critical communications devices.

FLEXIBLE

Using the included VESA mounting bracket and Poly compute mount, ThinkSmart Edition TINY can be mounted under conference room tables or behind front of room displays for a clutter-free look that provides easy access as needed.

EFFICIENT

Because it's purpose-built for UC software, ThinkSmart Edition TINY has everything you need and nothing you don't—like unnecessary storage or bloatware.

SUPPORT

In addition to Poly's outstanding customer service, ThinkSmart Edition TINY comes standard with Lenovo's 3 Year Onsite Warranty with Premier Support.
