ThinkVision P32u

## MORE PERFORMANCE. MORE PRECISION. MORE P SERIES.

Every workstation needs a monitor, but choosing the right monitor can make all the difference when it comes to your professional success. Take your work to the next level with a monitor that gives you more of what matters most!

- 10-bit display that offers over one billion colors
- Thunderbolt 3™ connectivity
- Up to 4K display
- And more

## MAXIMUM PRODUCTIVITY

P Series monitors do more than simply display visuals. They combine cutting-edge tech advancements with outstanding expansion capabilities, so you're able to amplify workstation productivity like never before. P Series monitors offer business-boosting benefits like:

- Multi-monitor setup
- Factory-calibrated color accuracy
- TÜV Eye Comfort Certification
- And more

## TRANSFORMING WORKPLACES

The ThinkVision P Series doesn't just let you see into the future of the modern workplace, it lets you live it. With tech innovation driving collaboration and efficiency, every aspect of the workplace must adapt—and monitors are no exception. That's why the P Series is designed to give your workstations more:

- Edge-to-edge displays
- USB Type-C connectivity
- Digital video ports
- And more

# THE CHOICE IS CLEAR

## THINKVISION P SERIES

Meet the ThinkVision P Series from Lenovo. Designed to bring your vision to life, P Series monitors not only impress with crystal-clear visuals, but also with powerful performance and unmatched reliability.
