#### ThinkSmart Hub 500

Easy to deploy and use, this all-in-one, purpose-built Skype Room Systems device is the key to more efficient meetings.

- Pre-connected audio and video eliminate start-of-the-meeting delays
- Rotatable 360° display for participants to take control immediately
- **Windows 10 Pro** IoT Enterprise provides intelligent enterprise-grade protection
- Intel® vPro™ Processor helps users maintain remote devices by performing out-of-band updates and remediation of software-related malfunctions

#### ThinkCentre Tiny with Intel® Unite®

Users can experience intuitive collaboration and get meetings underway instantly with the easy-to-use features on the ThinkCentre M920 with Intel® Unite®.

- Facilitates quick wireless connections to the big screen from devices
- Productivity is enhanced as up to four presenters can share screens at once
- Enables side-by-side comparison of data from separate reports or documents
- Participants can annotate on the screen in real time

## EFFECTIVE COLLABORATION SOLUTIONS

### Intel® Unite®

- Intel® Unite® lets users easily customize their solution with options such as protected guest access along with integrated controls for other collaboration technologies
- The extended mode on Intel® Unite® allows users to share their screen and multitask at the same time
- Intel® Unite® enables switching presenters with just a click to collaborate effectively, without having to pass cables

### Lenovo Unified Workspace

- It is OS agnostic; it works the same on **Windows 7**, Android, iOS, Mac OS, or **Windows 10 Pro**
- Lenovo Unified Workspace is available on-premises with the existing infrastructure or as a hosted solution managed by Lenovo

### Microsoft Office 365

- **Office 365** is a Cloud-based subscription service that facilitates secure collaboration from anywhere, on any device
- Secure access with a single login for all services and devices
- Users can connect better with customers and colleagues with a range of communication tools, from email and IM to social networking and video conferencing

## COLLABORATIVE WORKSPACES

### AUGMENT PRODUCTIVITY WITH LENOVO'S CUTTING-EDGE WORKSPACES

Today's workspaces are no longer confined to the four walls of an office. Employees work from across the globe and on-the-go frequently. With Lenovo's solutions, employees can effortlessly collaborate, share files, and access data from anywhere, anytime, and on any device.

- Users can experience smart and secure conferencing on ThinkCentre M920 Tiny
- Users can share files with attendees quickly, without having to email and wait for them to download the files
- Simple sign-in enables quick start and access to meetings

- Securely delivers the right apps and content to the right users anytime, anywhere, and on any device for optimum productivity
- Single sign-on access from anywhere for maximum employee engagement
- Integrated Cloud storage and file services across personal or business devices

- Enables multi-party HD video and content sharing
- Get a complete view of customer emails, meetings and calls in one place with Outlook Customer Manager
- Easily schedule appointments directly on the web in a convenient and flexible way through **Microsoft** Bookings

## TOOLS THAT COMPLEMENT SMOOTH CONFERENCING

Low Light  
Camera

ThinkShutter  
Camera Cover

Dual Array  
Microphone

Rotating  
Webcam

## CONFERENCING WITH MODERN PCs

### GET THINGS DONE WITH AN IMMERSIVE CONFERENCE EXPERIENCE

As employees collaborate and connect from different locations, businesses must ensure that they have the right tools in place for seamless collaboration and unhindered productivity. With Lenovo solutions, users can experience secure, effective, and effortless conferencing.

### LOW LIGHT CAMERA FOR CONFERENCING ANYTIME, ANYWHERE

ThinkPads and V Series laptops feature a 720p webcam that can deliver videos with high contrast, low color noise, and fine sharpness. It also enables effective video conferencing, even in a low-light environment.

### THINKSHUTTER CAMERA COVER FOR EFFORTLESS PRIVACY

The ThinkShutter sliding camera cover for the front-facing camera ensures stress-free privacy. With this feature, users can say goodbye to sticky notes and tapes.

### DUAL ARRAY MICROPHONE FOR EFFECTIVE COMMUNICATION

Whether making VoIP calls on the road or in a cafeteria, the dual array microphone reduces ambient noise, enabling clear and powerful audio.

### ROTATING WEBCAM FOR EFFICIENT MEETING EXPERIENCES

Many Lenovo devices come with a rotatable webcam that enables users to adjust their camera easily both horizontally (clockwise 0° to 180° rotation) and vertically (-25° to 25° rotation).
