

ThinkCentre M920 Tower

ThinkCentre M920 SFF

ThinkCentre M920 Tiny

LENOVO'S THINKCENTRES TRANSFORM PRODUCTIVITY

Extremely powerful, easy to manage, and configurable, ThinkCentre desktops can be tailored to meet the computing needs of today and tomorrow. Powered by the latest processors and storage technologies, ThinkCentre systems empower employees to stay productive while keeping user information secure. With numerous ports and expansion options, these 'desktop transformers' grow with your business, by providing the freedom to upgrade as needed.

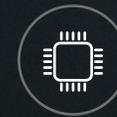

Powered by Intel®.
Intel Inside®.
Powerful Productivity Outside.

PRODUCTIVITY MATTERS TO BUSINESS

The objective of every business is to ensure that revenue stays ahead of costs. It is important to exercise due diligence and make correct technology investments to avoid unforeseen spending and unnecessary downtime, thereby realizing enhanced revenue per employee.

To transform productivity, the focus must be on:

High-performance Devices

that feature the latest processors, graphics, high-speed memory, and secure storage solutions suited to each organization.

Endpoint Device Management

to reduce excessive dependencies on IT teams, and ensure uniform deployments of system updates, security patches, and effective problem resolution.

Interruption Mitigation Tools

that provide quick and effective resolution to disruptions.

Communication Enhancement

through advanced connectivity tools that ensure effortless collaboration between teams.

Ergonomics Enhancers

such as adjustable monitors with TÜV Eye Comfort certification and input devices that reduce user fatigue and improve productivity.

ThinkCentre Features for Productivity

BIOS-based Smart USB Protection

Focus on work without worrying about data leaks or malicious uploads through the USB ports on your system. BIOS-based Smart USB Protection prevents data transfer while allowing mice and keyboards to work.

Tool-less Access

The ThinkCentre is designed to allow easy tool-less access to the chassis, which means that you can easily upgrade the system, freeing up the IT team's time to attend to crucial tasks.

Multi-display Support

With up to six independent displays*, ThinkCentre expands the limits of desktop computing to enable higher productivity. Multitasking is made efficient and uncomplicated.

*Requires the installation of an optional graphics card

USB-C and Thunderbolt™ 3 Port

An efficient, and versatile I/O solution that allows you to connect up to two 4K displays from a single port while simultaneously charging your mobile devices.

Dust Shield Filter

One of the biggest enemies of PCs is dust that clogs the air inlets and outlets. The dust filter on the Dust Shield can be removed for easy cleaning, ensuring particulate matter rarely causes an issue.

Intel® Optane™

Intel® Optane™ Memory is 3x faster at booting up, 30% faster while opening files, and transfers data at 200MBps. Pair Intel® Optane™ Memory with disk-based media to augment device performance without compromising storage capacities.

Software Features for Productivity

Lenovo Vantage provides easy and quick access to software updates, personalized settings, hardware diagnostics, warranty information, and technical support, all in one place. Using Lenovo Vantage helps make your day more productive.

Lenovo Vantage

Vantage Control Integrated with Cortana

While focusing on critical tasks, you can make use of this voice-based digital assistant to quickly manage mundane tasks such as setting up reminders or checking for updates to keep your PCs optimized for best performance.

Seamless and Automatic Updates

Vantage's update engine ensures that you never miss an update. This feature allows you to install critical and recommended updates automatically. It ensures that your system is optimized for the best performance while reducing the workload on IT teams.

Vantage Intuitive Support

Lenovo Vantage provides easy and quick access to personalized settings, hardware diagnostics, warranty information, and technical support, all at one place. Using Lenovo Vantage helps make your day more productive.
