ENERGY STAR® Qualified Products

ENERGY STAR® Introduction

What is ENERGY STAR®?

[ENERGY STAR®](#) is a joint program between the U.S. Environmental Protection Agency and the U.S. Department of Energy conceived to promote energy efficiency and reduce Greenhouse Gas emissions in hardware of all kinds. Products meeting certain standards such as contributing significant energy savings while maintaining high performance and features earn an ENERGY STAR® label. Such labeling identifies and promotes energy-efficient products and helps customers decide which products to purchase that will offer savings on their energy bills by lowering their electricity costs. Therefore, purchasing an Energy Star labeled product ensures you are saving energy and minimizing your environmental impact, all without sacrificing performance.

Benefits to Lenovo's ENERGY STAR® Qualified Products

ENERGY STAR® compliant systems have been recognized as beneficial to the consumer through lower operating costs, lower overall energy consumption and reduced heat emissions.

Lenovo's historical and continued focus on product energy efficiency provides a strong product differentiator in a market and regulatory environment that increasingly values these attributes. Lenovo offers a full complement of ENERGY STAR® qualified laptop, desktops, workstations, monitors and servers. Many Lenovo notebook, desktop, workstation, server and monitor products satisfy and even exceed the current ENERGY STAR® requirements.

How to Search for a Lenovo ENERGY STAR® Qualified Product

Lenovo ENERGY STAR® certified products can be found by searching the following formats:

1. Search for the product on the Lenovo Product Specifications Reference (PSREF) which can be found at: <http://www.lenovo.com/psref/>

STEP 1:

The screenshot shows the 'Current Lenovo product books:' section with the following links:

- ThinkPad Notebooks (~5MB)
- ThinkPad Edge Notebooks (~1MB)
- ThinkCentre Desktops (~4MB)
- ThinkStation Workstations (~2.5MB)
- ThinkServer Servers (~5MB)
- ThinkVision Monitors (~1MB)

A red arrow points from the 'ThinkStation Workstations' link to a callout box that says: 'Click the PRODUCT BOOK link of the brand you are searching'.
