LENOVO SERVICES™

SAP HANA OR SAP BWA DEPLOYMENT SERVICES

Accelerate time to productivity with fast, efficient SAP HANA or SAP BWA deployment

BENEFITS

EFFICIENT

Minimize the disruption of migrating applications

RELIABLE

Ensure optimum performance with best-practice processes

TARGETED

Tailor the solution for unique business needs

Lack of time or resources can limit your ability to take advantage of new technologies and applications. Let SAP-certified Lenovo consultants evaluate, implement, and manage your SAP HANA or SAP BWA solution, allowing your IT team to focus on other priorities. Lenovo SAP HANA or SAP BWA Deployment Services helps accelerate time to productivity while providing a foundation for enhanced operational performance and reliability. The Lenovo Services team employs best practices and established methodologies to install, configure, and validate your hardware, networking, and SAP HANA or SAP BWA hardware infrastructure. The services include pre-installation planning and design review, along with hands-on skills transfer for the installation of the system.

Lenovo can also help relieve the burden of managing your SAP HANA or SAP BWA system with ongoing managed services or periodic site health checks, helping to optimize the potential of your SAP software. Using our considerable expertise in infrastructure management for SAP environments, we will work with you to update your configuration and share best practices to reduce costs and maximize the return on your technology investment.

Lenovo SAP HANA or SAP BWA Deployment Services enables you to:

- Accelerate time to market with fast, efficient implementation
- Reduce risk of failures by following structured processes built up over many years
- Minimize disruptions through proper planning and data center preparation
- Get quick, effective responses from experienced SAP HANA/BWA hardware consultants
- Deploy SAP HANA Tailored Datacenter integration (TDI)
- Get personalized advice from our consultants with hands-on skills transfer

TRUSTED EXPERTISE

The Lenovo Services team is committed to ensuring a fast, smooth deployment through diligent pre-installation planning, structured governance, and detailed post installation reporting. Lenovo SAP-certified consultants guide you through every step of your project. Our depth of experience minimizes your investment of time while giving you the means to fully exploit the capabilities of your system.

SAP HANA OR SAP BWA DEPLOYMENT SERVICES PROCESS

Before visiting your site, the Lenovo Services team will help prepare your data center for the deployment, including gathering information about your existing environment, identifying requirements, and defining your business goals. During the on-site visit, expert Lenovo technicians will carry out several tasks:

- Perform an inventory and validation of the delivered system configuration
- Verify and update your hardware to the latest level of BIOS, firmware, device drivers, and OS patches, as required
- Verify and configure storage
- Install the SUSE Linux Enterprise Server (SLES) or Red Hat Enterprise Linux (RHEL) operating system on the SAP servers
- Configure and verify network settings
- Install, configure, and verify the file system (GPFS or XFS)
- Install HANA IMDB—for SAP HANA—or SAP TREX software—for SAP BWA
- Perform SAP HANA or SAP BWA system validation
- Provide on-site skills transfer and deliver post-installation documentation

CUSTOMERS WHO BOUGHT THIS OFFERING ALSO PURCHASED
