

5 MYTHS ABOUT AI

Do you know how Lenovo can demystify AI for you?

MYTH

AI is too high tech for my business.

1

FACT

Regardless of how technical your business is, AI is an enabler and can be utilized across many industries of all sizes.

MYTH

AI is a fad. I should wait for others to test it out first.

2

FACT

AI has been around for many years and is evolving from a tech trend to a business requirement that should be adopted to gain maximum benefits.

MYTH

AI is too complex for my company to implement.

3

FACT

Implementing AI can seem challenging; however it doesn't have to be! Lenovo can support in a number of ways, enabling your path to AI success.

MYTH

We have too much unstructured data, I don't even know where to start.

4

FACT

All AI projects start with complex and unstructured data, so you have nothing to be worried about. Machine and Deep Learning can help solve this challenge for you.

MYTH

I need to invest huge amounts of money to even begin starting AI projects in my company.

5

FACT

AI is an evolving technology, and with Lenovo, you can scale in accordance with your business needs. You don't have to invest big; start small and simply scale as your requirements grow.
